\*On a day marked with an \*, the initial prediction of ozone conditions of "Moderate to Unhealthy for Sensitive Groups", or greater was revised to either "Good", or "Good to Moderate" or "Moderate" by 3 P.M. Therefore, on these days the regulated community is allowed to operate emergency engines, or other regulated equipment, after **3 P.M.** on that given day.

\*\*On these days, the initial prediction of ozone conditions of "Moderate", was revised to "Moderate to USG, or greater" the following morning by 10 AM. Therefore, on these days the regulated community would still be allowed to operate emergency engines (or other regulated equipment) on that given day. However, CT DEEP requests voluntary restrictions on regulated engines to assist in reducing ozone formation during the afternoon hours that same day.
